Our Vision

To become an ever evolving pioneer in the field of Investment Castings with total commitment of meeting future Engineering needs

Our Mission

Pioneering conversion of ideas into sustainable physical reality.

Quality Policy

We shall ever strive to be evolve into Technology Leaders in the field of Industrial Investment Castings by satisfying stated and un-stated Customer Needs and become a Leader in optimized application of Investment Castings in the ever evolving Engineering Field.

We shall pursue a policy of continual improvements by:

- Ensuring compliance to laid down process parameters and statutory and regulatory requirements in incoming, in- process, outsourced and out-going processes.
- Empowering team members to continually improve processes via Plan-Do-Check-Act Methodology.
- Innovation in solving problems in evolving feasible engineering solutions.
- Constant Technology up gradation and adoption of latest technological improvements.
- Development of the necessary competence to meet specific Quality requirements.

Quality Objectives

- Establish processes to ensure compliance related to statutory, regulatory and technical requirements of products, processes and activities.
- Improve efficiency and/or effectiveness of processes to improve productivity.
- Implement and adopt latest technological innovations via benchmarking.
- Develop competence to serve Customer's Quality Requirements and adopting technological upgradation.

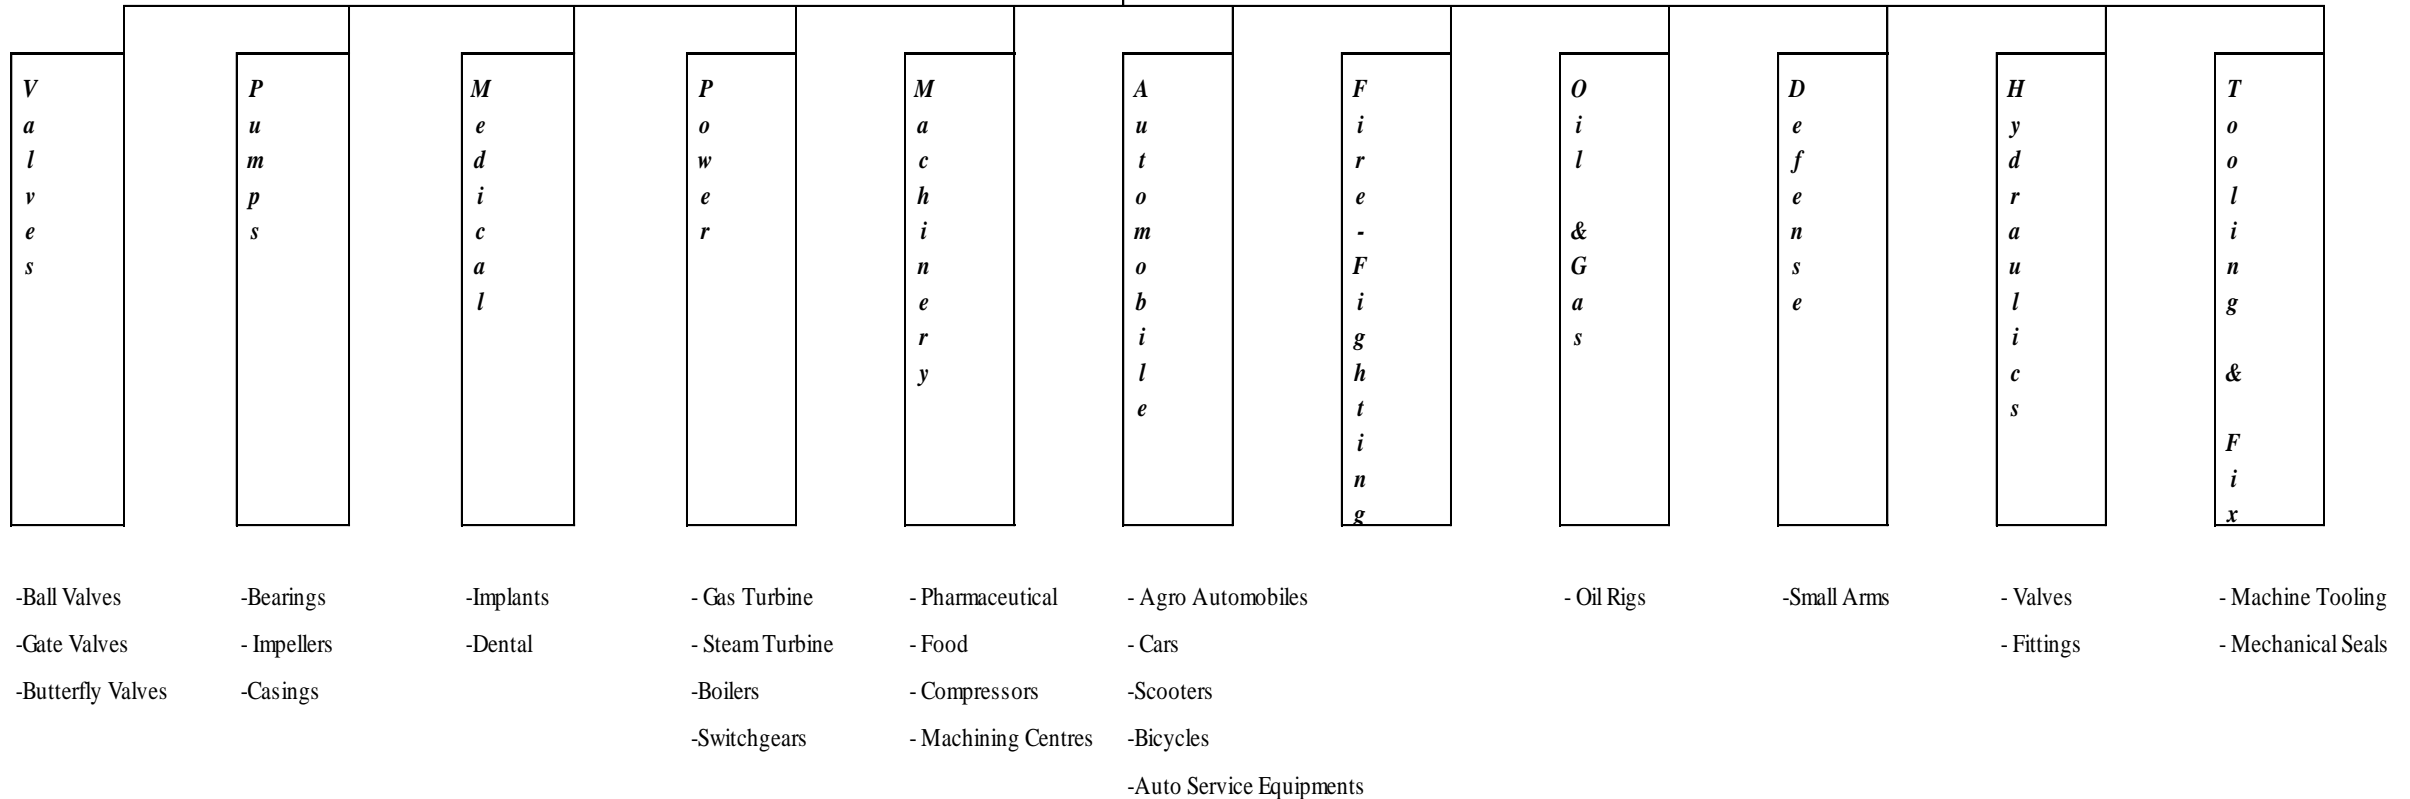

The Investment Casting Process:-

- The Investment Casting Process is also known as “Lost-Wax Casting” Process. It is an age-old technique of casting metals.
- In this process the mould is “invested” or broken every time and cannot be re-used.
- This process enables to manufacture thin wall, highly complex shapes for use in critical applications where strength and durability are most important.
- Provides opportunities to rethink expensive, multi-part assemblies as single-piece investment castings.
- Reduces amount of finishing operations required and has a better surface finish than the conventional casting processes.
- Flexibility to use any material for casting.

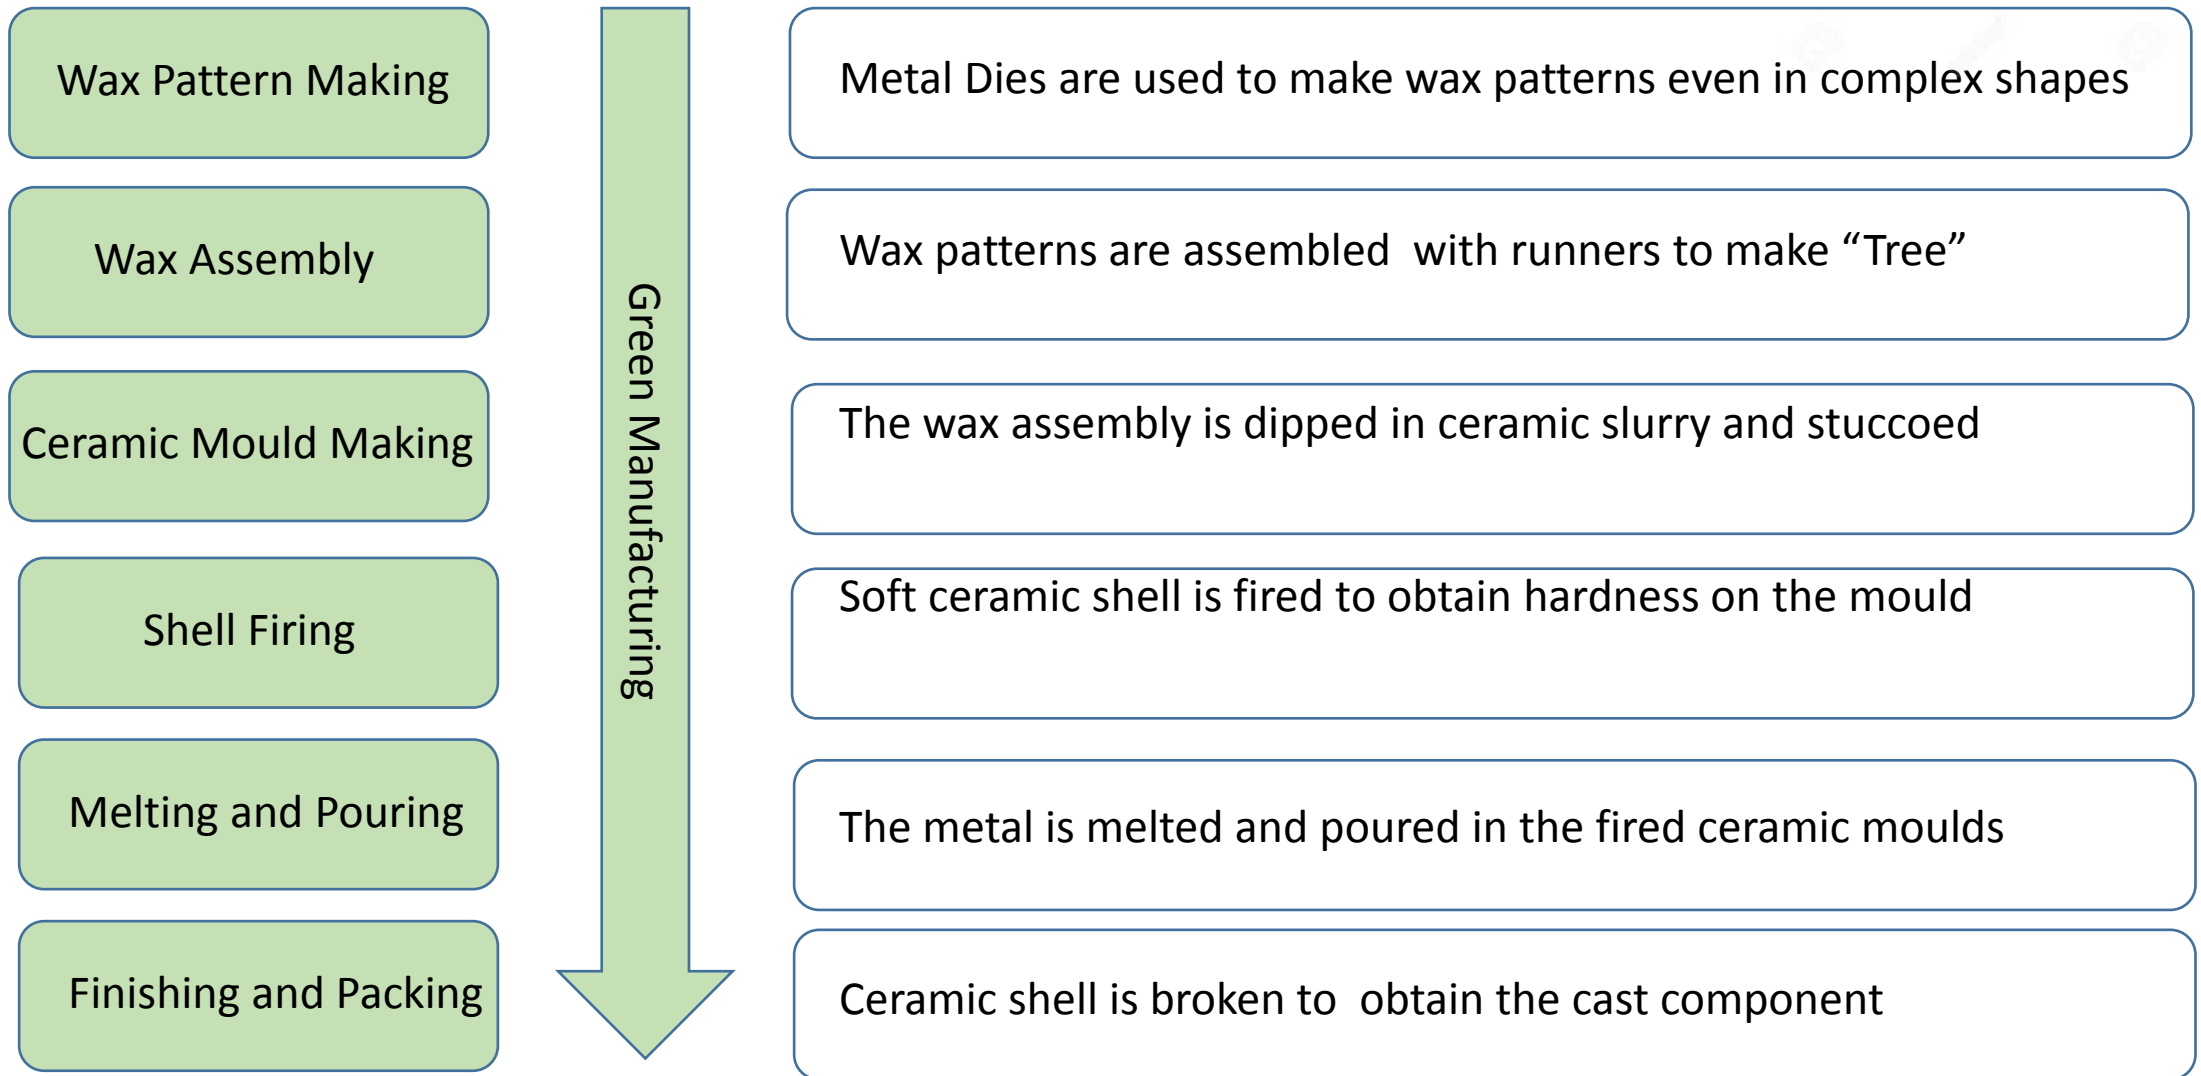

Investment Casting Market:-

Investment Casting Market

Investment Casting Process Map :-

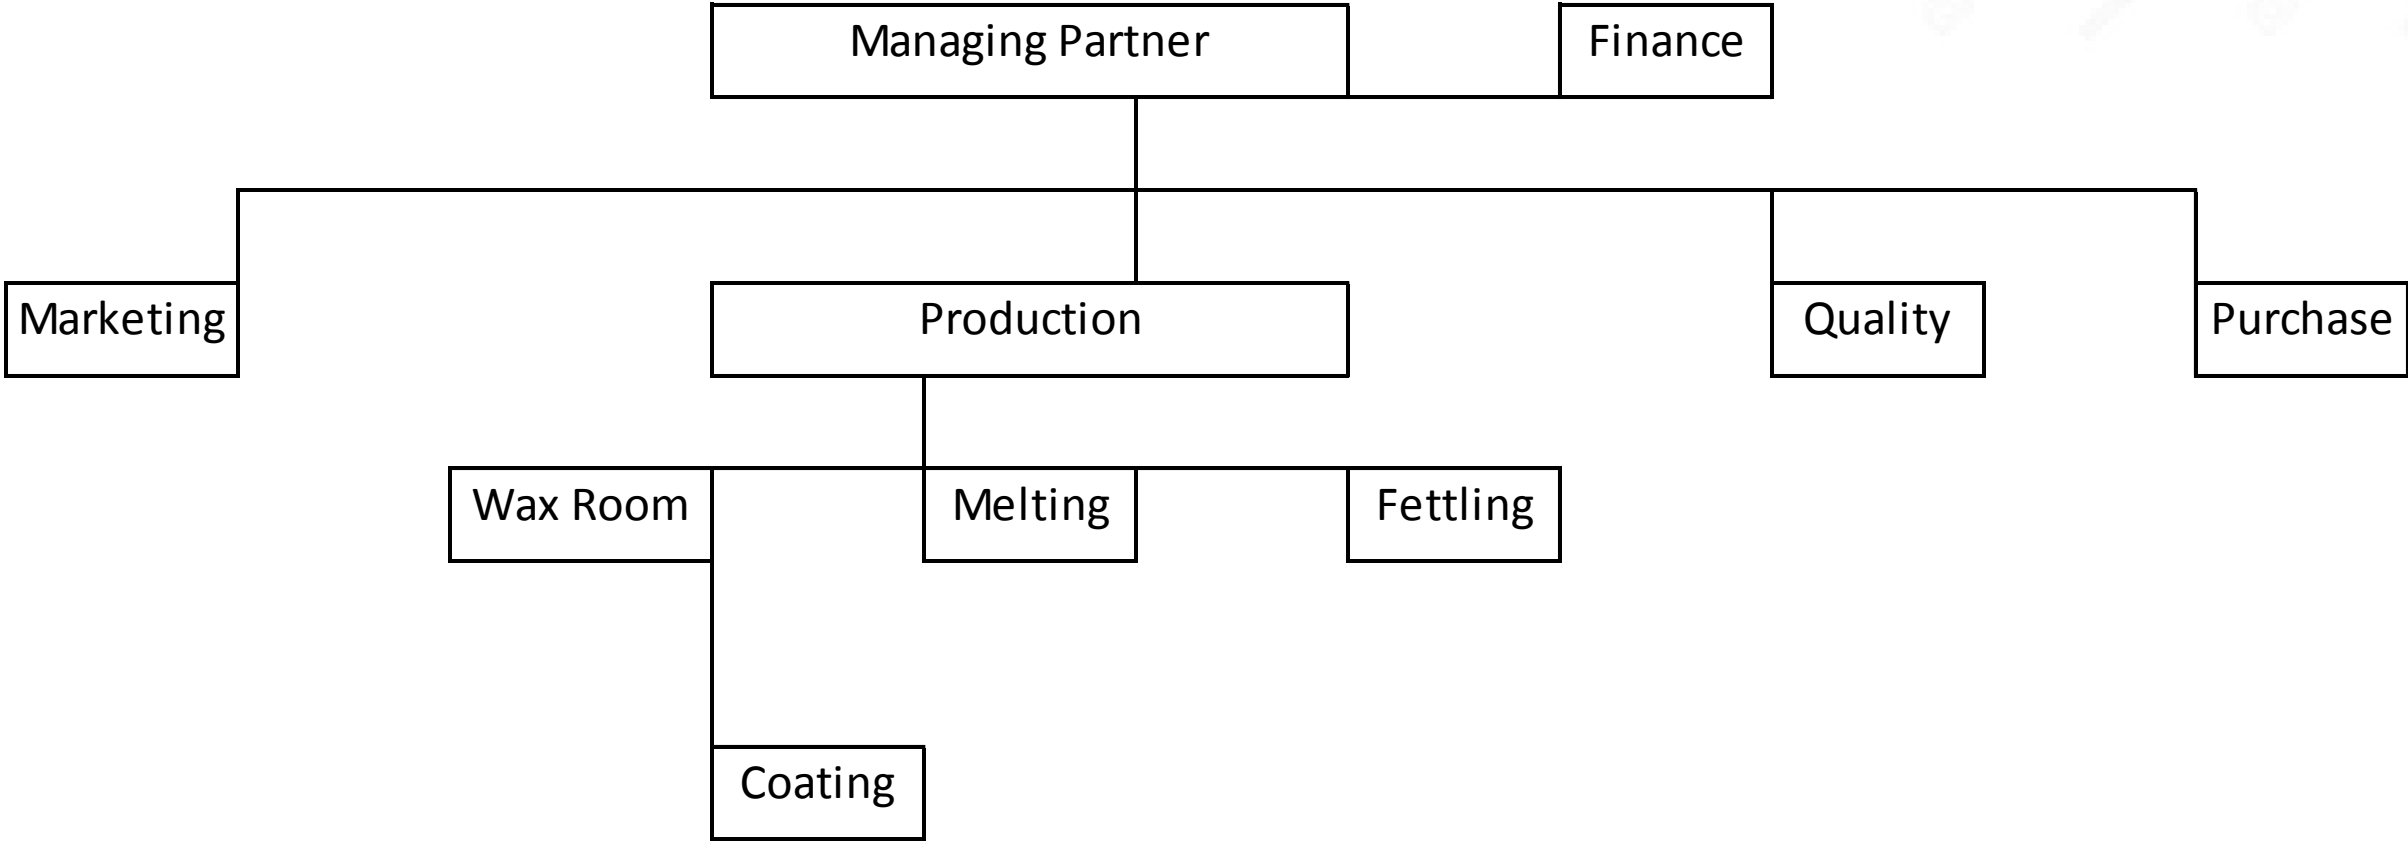

The Company

- New Era Investment Foundry is an Investment Casting Foundry for manufacturing Near Net Shape Castings in Steel in various grades.
- A partnership company located in a Private Industrial Complex with a Working area footprint of 60' X 116'
- Installed production capacity of 15 Tonnes per month.
- All installed machines are brand new bought from reputed manufacturers.
- Ability of Rapid Prototyping with small production volume per part
- Highly skilled team with wide experience in Investment Casting Foundries.
- Year-on-year increasing Sales Revenue.

Organization

Total Personnel(Contract + on Rolls) = 25

Major Machines

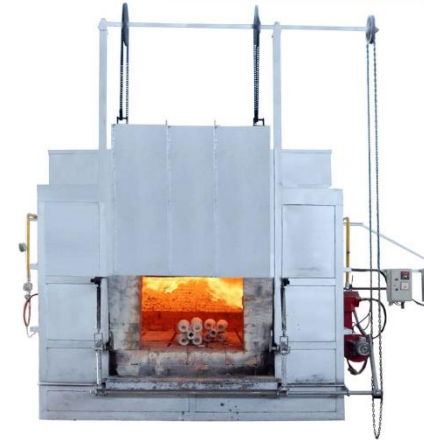

Wax Injection Press

Rainfall Sander

100 Kg Induction Furnace

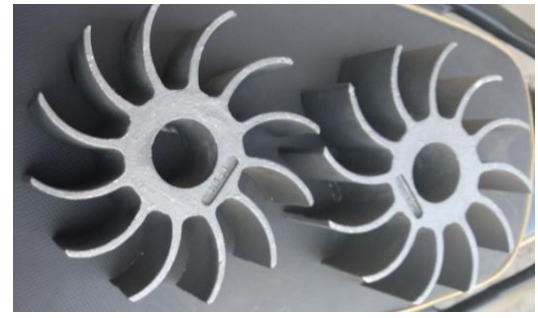

Shell Baking Furnace

Shot Blasting

Our Investment Cast Components:

List of Machines

Serial Number	Equipment/Machine Description	Quantity	Manufacturer	Capacity
1	Induction Melting Furnace	1	Electrotherm Industries Ltd	100 Kgs-50KW(415V)
2	Air Compressor	1	Chicago Pneumatics	15HP
3	Wax Melting Machine	3	Mayur Engineering Works	50 Kgs
4	Wax Injection Press Semi Automatic(Vertical)	2	Mayur Engineering Works	825mmX1250mm table
5	Hot Plate	1	Mayur Engineering Works	450mmX650mm table
6	Slurry Coating Machine	2	Mayur Engineering Works	600mm X 600mm
7	Rainfall Sender Machine	1	Mayur Engineering Works	900mm X 900mm
8	Fluidized Bed	2	Mayur Engineering Works	2 X 600mm X 600mm
9	Shell Baking Oil Furnace	1	Mayur Engineering Works	1000mmX1000mmX1000mm
